

Health Guarantee/Contract

The seller certifies that the puppy you purchase is in sound health at the time of sale to the best of my knowledge, and has been given all vaccinations and wormings stated on the vaccination record provided to the buyer(s). I do my best to provide the new owner with a healthy puppy. The buyer will become responsible for further vaccination, boosters, and worming.

If this puppy becomes sick or has a genetic default, the following stipulations must be adhered to in order for a replacement to be made. Official report from a licensed vet stating, without a doubt, the puppy has a genetic defect that would hinder the pup, must be sent along with a contact of the vet. If a puppy should die, an autopsy must be done by a licensed vet stating the cause of death. The documentation must be forwarded to me before a determination will be made. The seller reserves the right to confirm diagnosis with a vet of my choice. The seller will not be responsible for any charges that you may incur, including return shipping and vet expenses.

The warranty applies only to the original buyer. Parasites are not covered under warranty as a puppy can pick these up overnight in travel. Your puppy will be up to date and should be wormed regularly as recommended by your vet.

We have raised this puppy from sound parents and it is your responsibility to take good care of him/her to ensure a long, healthy life. You may play an important role in helping your puppy grow into a healthy adult.

I, the seller, do hereby agree to offer a one year genetic warranty on this puppy as stated in the conditions above.
